PROJECTS

Blogme 🔗 🐙 | *HTML CSS,Django,Postgresql*
- This project is a blog app where users can post and read others' blogs.
- A proper profile page is dedicated to the user and reader.
- I have used HTML and CSS. I have used Python Django for the backend and Mysql lite for the database..

Funzi 🔗 🐙 | *Reactjs, Django, Rest API, Spotify API*
- This project is based on Spotify API.
- A group of people can hang out while listening to music based on their choice.
- Skipping can be done based on votes. Here in this project, I have used Reactjs and Django along with Rest API

Social Media (Currently working) 🔗 🐙 | *,Django, Postgresql, HTML ,CSS*
- This is a social media app with chatting functionality
- You can post, share any content, and react to any post.
- Dedicated profile page for user and crud functionality for post and profile.
